Introducing the Breakthrough Smart Multi

Activate Your Health Potential & Defy Aging

Defy Aging!

PhytoMulti® is the “Smart Multi” that takes you beyond basic wellness support to help you reach your best health possible.*

Unlike ordinary multivitamin/mineral supplements, PhytoMulti provides a proprietary, concentrated blend of plant extracts rich in phytonutrients—

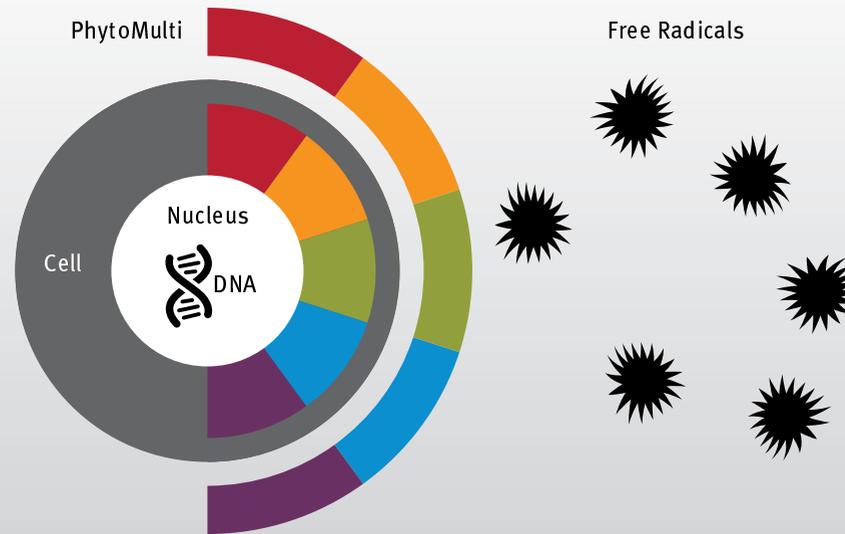

bioactive secondary metabolites in plants with scientifically established health benefits.*

PhytoMulti’s science-based spectrum of phytonutrients—enhanced with quality vitamins and minerals—is designed to recharge, nourish, and defend your cells. It’s intelligently designed support for well-being and the health of multiple body systems and functions:*

- Brain & nervous system health
- Eye & vision health maintenance
- Cardiovascular health
- Liver health
- Immune system health
- Metabolism

PhytoMulti has shown the potential to protect the cell from damaging free radicals and support DNA stability*

Why is it smart to take PhytoMulti?

PhytoMulti reflects extensive research on the diverse phytonutrients found in a healthy Mediterranean diet, rich in a colorful variety of fruits, vegetables, herbs, and other plant foods. Phytonutrients provide important nourishment to promote healthy cellular function and communication in the body. They also provide antioxidant protection against potentially damaging free radicals that increase with age, poor lifestyle choices, and pollutants. That’s why health experts recommend eating more phytonutrient-rich foods to help you thrive.*

PhytoMulti is intelligently designed

For a revolutionary approach, our scientists created a proprietary blend of carefully selected plant extracts known for their complex phytonutrient content. Standardized extracts offer a more concentrated source than simple food powders. And lab tests verify the presence of key phytonutrients in each extract, along with the presence of other naturally occurring factors that may positively influence health. PhytoMulti also includes other superior phytonutrients—including lutein, lycopene, and resveratrol—to provide targeted support for healthy eyes, heart, and more.*

Delivering support for cellular protection & healthy aging

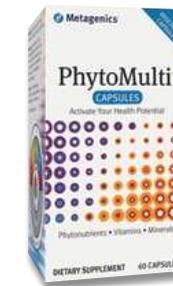

PhytoMulti is uniquely designed to protect the cell—to help the cell send signals in favor of good health throughout the body. Clinical research conducted by Metagenics demonstrated potential to support the body’s antioxidant mechanism and improve certain markers of oxidative stress and cardiovascular health. A sophisticated Comet test has demonstrated the phytonutrient blend’s potential to maintain DNA stability in human immune cells. And an advanced Total ORAC_{FN} assay has shown PhytoMulti’s superior potential for protection against oxidative stress caused by free radicals.*

A smart choice for a super-charged dose of nutrients

PhytoMulti goes beyond daily nutritional supplementation with an optimized blend of health-supporting nutrients. This research-based formulation delivers focused, multidimensional support for healthy aging with the power of concentrated phytonutrients—with simple, once-daily dosing.*
