4821-3B

Vitamin A: an essential vision nutrient that's important for night vision and maintaining healthy eye membranes and moisture*

Vitamin C: important for collagen production, a major component of the eye tissue that helps maintain healthy blood vessels and protect the eyes from free radical damage*

Vitamin E: an important antioxidant for the entire eye, especially the retina and lens*

Zinc: an important mineral for retina health that's found in high amounts in the eye*

DHA: an important component of the rods and cones of the retina, which enables vision*

GLA: provides important nutrients that promote healthy eye moisture.
