Collagenics is a comprehensive, proprietary blend of important vitamins, minerals, free form amino acids, and other important nutrients that support connective tissue health.*

Benefits:

Provides targeted nutritional components known to be involved in the biochemical processes that support healthy connective tissue present in the skin, tendons, ligaments, cartilage, joints, and bones*

Q. How does Collagenics® compare to other products or approaches?

There are many MSM formulas, but Collagenics offers a proprietary blend of research-based nutrients (vitamins, minerals, amino acids) to support targeted musculoskeletal health functions. It also provides minerals in a chelated form designed for better absorption. This product contains only natural ingredients for a safer approach.*

Q. How does Collagenics® work?

As a nutraceutical, this product is formulated to complement dietary recommendations. It supplies a sophisticated blend of natural ingredients to support underlying processes in maintaining healthy connective tissue.*

Q. How long is Collagenics® typically recommended?

This formula was designed for connective tissue health support on a daily basis where appropriate. Individual results may vary. For best results, follow your health care professional's guidelines.*

Q. Who would benefit from Collagenics®?

Health care professionals typically recommend this product for targeted support for healthy connective tissues (joints, ligaments, tendons).*

Q. Why is Collagenics® safe?

It contains a blend of natural ingredients with an excellent safety profile. Plus, Metagenics' manufacturing facility has 3 certifications for good manufacturing practices to ensure the highest quality.
